EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. This application is in condition for allowance except for the presence of claims 1-13 and 27-31 directed to an invention non-elected without traverse. Accordingly, claims 1-13 and 27-31 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: The closest available prior art—the Raoux (US 7,004,107 B1) reference—discloses a plasma processing chamber and an electromagnetic source, but not that the electromagnetic source is downstream of the chamber and coupled to the effluent-carrying conduit. There is no motivation to modify Raoux to include a electromagnetic source coupled to the outlet of the chamber as Raoux does not suggest a reason to do so and nothing in the prior art provides motivation to modify Raoux to measure impedance in the flow path to which a downstream electromagnetic source is coupled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
